

## Selah Residents

The contractor, P.O.W. Contracting, Inc., has been selected for the 2016 Third Street Water Main Replacement Project and will start March 21, 2016. The project is scheduled to be completed mid-May 2016.

South Third Street from Southern to 200 Ft. North of Valleyview Ave will be open to Local Traffic, but there will be some detours and closures during the project for local traffic.

A schedule of the contractors work will be posted on the Cites web page at: <https://selahwa.gov/construction-projects/>

It is also anticipated that there will be some water outages both scheduled and un-scheduled.

For more information contact Selah Public Works at 698-7365.

Thank you,

Ty Jones  
Public Works Utility Supervisor
