

City of Selah
Council Minutes
October 25, 2011

Regular Meeting
Selah Council Chambers
115 West Naches Avenue
Selah, WA 98942

A. Call to Order Mayor Jones called the meeting to order at 4:00pm.

B. Roll Call

Members Present: Keith Larson; Paul Overby; John Tierney; Kevin Jorgensen; Dave Smeback; John Gawlik; Allen Schmid

Members Excused:

Staff Present: Frank Sweet, City Supervisor; Bob Noe, City Attorney; Dale Novobielski, Clerk/Treasurer; Jerry Davis, Fire Chief; Stacy Dwarshuis, Police Chief; Jeff Hagler, Parks, Recreation & Tourism Director; Joe Henne, Public Works Director; Dennis Davison, Community Planner; Monica Lake, Executive Assistant

C. Pledge of Allegiance

Councilman Larson led the Pledge of Allegiance. Pastor Mark Griesse led the opening prayer.

D. Agenda Changes

Removed from Agenda:

1. M – 1 Resolution Authorizing the Mayor to Sign a Municipality Tourism Promotion Management Contract with Yakima Valley Visitors & Convention Bureau for the Year 2012
2. M – 2 Resolution Authorizing the Mayor to Sign an Advertisement Contract with Yakima Valley Visitors and Convention Center for the Year 2012

Amended:

1. M – 7 Resolution Authorizing the Mayor to Sign a Contract for Wastewater Treatment Facility Clarifier Upgrades with William Charles Construction Company, LLC dba William Charles West

E. Public Appearances

Mayor Jones welcomed Bill Harris, Greater Yakima Girls Softball Association, and invited him to speak.

Mr. Harris started by noting that the 2011 season concluded with the Pumpkin Classic held earlier this month. He said that the Greater Yakima Girls Softball Association, or GYGSA, has enjoyed a partnership with the City of Selah for eleven years, and that this partnership has been expanded to include the Selah School District as well. He observed that the seven fields on both City and School District property are the four field complex and the northeast corner field at Carlon Park, the high school ball field, and the field adjacent to the football field. He stated that this year the league consisted of twenty-six teams, with ages ranging from eight to fourteen, and they played a total of three hundred and twelve games during the season. He said that the teams played Monday through Thursday, with Friday reserved as a rest day for the fields as well as tournament preparation. He went on to say that GYGSA and ASA District 4 held seven tournaments this year, four of which had twenty-five or more teams. He noted that twenty-four teams max out the Carlon Park fields, but the partnership with the Selah School District allows for larger tournaments by utilizing the fields on school property. He talked briefly about the 2011 ASA 14U State Tournament, which consisted of fifty-three teams, and said that they partnered with the City of Yakima to have enough fields for the teams to play on. He went on to say that Selah was awarded the 2012 14U State Tournament and touched briefly on the fall State meeting in Yakima where GYGSA vied with other Washington cities for the five State Tournaments. He said that Selah hosted the NWAC Crossover Tournament with YVC, which included twenty-four teams from around the Northwest. He noted that Selah hosted the 2A District High School Tournament, the 2A Regionals, and the 2A State Tournament and spoke briefly about the teams participating. He commented that there were two hundred and forty-seven total teams in the three High School Tournaments, of which one hundred and eighty-seven traveled from out of town and most of those stayed multiple nights. He mentioned that the University of Washington softball team was back for the fifth year to hold a scrimmage and clinic for one hundred and forty girls. He went on to say that budgets are getting tighter; noting that a lot of cities are looking for a niche to generate revenue and tourism, and pointed out that Carlon Park provides that for Selah. He noted that GYGSA is utilizing their money by purchasing items such as netting and score boxes for each field at Carlon Park.

Councilman Tierney asked how many players each team had, on average.

Mr. Harris replied that the average is thirteen. He went on to say that, on average, each person who travels spends approximately \$131 per night between food, lodging and gas. Based on the one hundred and eighty seven teams in Selah from the last season, one would take thirteen players per team times 2.5 people per player, add those numbers together and times them by \$131 per night for three hundred and sixty-five room nights, to arrive at an approximate amount spent by each person in Selah and the greater Yakima area. He noted that the money spent in Selah and Yakima cycles around and all of this is due to tourism.

Councilman Smeback complimented Mr. Harris on his leadership in this area.

Mr. Harris responded that there a lot of people who help with this, including the School District, which makes it really nice.

Mayor Jones observed that the program would never have gotten to where it is without the guidance of Mr. Harris and his wife.

Mr. Harris thanked Mayor Jones and reiterated that there are a ton of people who make this happen.

Mayor Jones said that you have to have leadership and that's where you come in. He thanked Mr. Harris for his presentation.

F. Getting To Know Our Businesses **None**

G. Communications

1. Oral

Mayor Jones opened the Public Meeting. Seeing no one rise to speak, he then closed the Public Meeting.

2. Written

a. Letter from Basin Disposal of Yakima, LCC re: Recycle Data Report for the 3rd Quarter of 2011

H. Proclamations/Announcements **None**

I. Consent Agenda

Executive Assistant Lake read the Consent Agenda.

All items listed with an asterisk (*) were considered as part of the Consent Agenda.

* 1. Approval of Minutes: Study Session and Council Meeting September 13, 2011

* 2. Approval of Claims & Payroll:

Payroll Checks Nos. 72052 – 72189 for a total of \$171,174.18

Claim Checks Nos. 59025 – 59026 for a total of \$ 456.09

Claim Check No. 59027 for a total of \$ 265.09

Claim Checks Nos. 59028 – 59090 for a total of \$217,974.68

* 3. Resolution M – 4 Resolution Authorizing the Mayor to sign the Construction Change Directive (CCD) No. 4 for the New Public Works Utility Maintenance Facility

* 4. Resolution M – 6 Resolution Authorizing the Mayor to Accept Change Order Number 1 for the Rushmore Road Improvement Project

* 5. Ordinance N – 2 Ordinance Providing for the Annexation of Certain Real Property by the City of Selah, Washington, and Incorporating the Same within the Corporate Limits thereof and Zoning said Real Property Two-Family Residential (R-2)

Councilman Gawlik moved, and Councilman Jorgensen seconded, to approve the Consent Agenda as read. By voice vote, approval of the Consent Agenda was unanimous.

J. Public Hearings

1. Consider Declaring Property south of Crusher Canyon Road (proposed future City Hall site) as surplus

Community Planner Davison addressed J-1. He said that this is to consider the 5.77 acres originally purchased for a future City Hall site as surplus. He referred the Council Members to the map included in their packets, noting that the property is located south of Crusher Canyon Road and was acquired in May of 2004. He went on to say that it is currently a vacant lot, surrounded by vacant land to the north and the south, and residences to the east and the west. He stated that the property is currently zoned as single-family residential by Yakima County and low-density residential by the City's Comprehensive Plan. He said that there was no environmental review done on the subject property, but there are water and sewer lines available to the north of the site on Crusher Canyon Road and access via Crusher Canyon Road. He ended by saying that the Planning Department recommended that the property be declared surplus and sold with the three previously vacated properties, but that Public Works did not concur with this recommendation.

Mayor Jones opened the Public Hearing.

Councilman Tierney opined that the property should not be surplus, as it is over five acres of prime land with adjacent water and sewer as well as easy access. He felt that this should be platted for future residential lots before they consider selling it, as land is money in the bank and will bring more money in if platted.

Councilman Overby inquired as to the current fair market value of property.

Community Planner Davison responded that it should be about the same or slightly less.

Councilman Overby commented that it might be sold at a loss.

Councilman Tierney remarked that building lots can be anywhere from \$50,000 to \$70,000 apiece and that one could easily get twelve to fourteen lots out of a piece of land this size.

Councilman Smeback agreed with the idea of short platting the development to generate more money but expressed concern over the City competing with local developers in the private sector.

Councilman Tierney said that if it was pre-platted and ready to go it would increase the value to a developer.

Councilman Smeback remarked that a developer would have to agree with the layout. He asked if the fill dirt on the land had gone through a compaction process.

Community Planner Davison responded that he did not believe so but referred the question to Public Works Director Henne.

Public Works Director Henne replied in the negative.

Councilman Smeback noted that a developer would have to go down to virgin dirt and completely redo the compaction process, which can be a significant cost.

Councilman Tierney inquired why Public Works Director Henne felt the City should keep the land.

Public Works Director Henne responded that he wants the dirt back off of it, as they still have a couple miles of road left to go.

Councilman Overby asked about the yearly cost to maintain the property.

Public Works Director Henne replied that they mow it twice a year.

Councilman Overby asked if any taxes are paid on it.

Public Works Director Henne responded in the negative.

Councilman Smeback asked if Parks, Recreation and Tourism Director Hagler will start a fishing pond there.

Mayor Jones remarked that he felt the pond can be a nuisance.

Public Works Director Henne noted that the system will be pressurized, which will eliminate the pond.

Councilman Smeback said that sitting on the property for even another thirty-six months couldn't hurt.

City Supervisor Sweet remarked that this is similar to what was done at Marudo, which allowed the City to be more flexible when it was marketed.

Ed Betcher, of Gore Road, approached the podium. He said that he currently owns the acreage directly south of the subject property and opined that the disposal of the subject property affects him. He commented that he has asked for an easement across the property in the past, and was told that it would affect the selling price of the subject property.

Councilman Larson asked if he had an easement to his property.

Mr. Betcher responded that he does have an easement off of Tenth Street and outlined the specifics of that easement. He went on to say that future development of his land could require a second access point, which could stunt the development.

Councilman Larson asked about another access indicated on the map.

Mr. Betcher said that he has been in a lawsuit over that particular access but noted that it's not really wide enough to expand a road as it was put in to allow for sewer access to the property.

Councilman Larson asked if it was just for utilities.

Mr. Betcher responded that it is a utility easement for sewer, as it's not large enough for both water and sewer.

Seeing no one else rise to speak, Mayor Jones then closed the Public Hearing.

2. Revenue Sources for the 2012 Budget

Clerk/ Treasurer Novobielski addressed J-2. He proposed implementing a 1% increase on property taxes for 2012, which would generate an additional \$13,420.00 and noted that taxes from new construction would add an additional \$14,900.00, bringing the total revenue from property taxes to 1,370,000.00. He

went on to say that 69% of those funds go into the General Fund, the Fire Control Fund is allotted twenty percent, the City Street Fund receives ten percent, and the remaining one percent is used to pay the City's half of the rent for the library building. He said that the proposed EMS tax for 2012 is \$87,500.00. He moved on to sales tax, noting that next year he anticipates a \$9,000.00 increase for a total of \$815,00.00, of which eighty-six percent goes to the General Fund, the City Street Fund receives twelve percent and the remaining two percent is budgeted for administrative costs at the Civic Center. He commented that there is a three-tenths percent public safety tax and a one-tenth percent sales tax for criminal justice dedicated to the Police Department, as well as a three-tenths tax for the transit system.

Councilman Overby wondered if Public Safety and Transit numbers should be the same, as they are both three-tenths of a percent.

Clerk/ Treasurer Novobielski replied that there are exemptions on some of the taxes, including one which does not apply to motor vehicles.

Councilman Tierney asked if that accounted for both the total sales tax increase and the decreasing amount in the Public Safety tax.

Clerk/ Treasurer Novobielski responded that the estimate was provided by Police Chief Dwarshuis and invited him to explain.

Police Chief Dwarshuis commented that current trends for revenues are down about three percent, or approximately \$7,000.00, this year.

Clerk/ Treasurer Novobielski said that the rates for water, sewer, and garbage are projected to increase another three percent for 2012, which would bring the basic rate up to \$77.73.

Councilman Smeback wondered why the amount set aside for the City Street Fund has increased from nine and a half percent in 2008 and 2009 to twelve and a half percent in the proposed 2012 budget.

Clerk/ Treasurer Novobielski responded that the City Street Fund has limited resources, mainly from fuel tax and sales tax, and that a balanced budget required either a decrease in expenditures or an increase in revenue sources.

K. New Business **None**

L. Old Business **None**

M. Resolutions

1. REMOVED FROM AGENDA

2. REMOVED FROM AGENDA

3. Resolution Authorizing the Mayor to Sign the Palacios Outside Utility Agreement (File 171.45.11-01)

Community Planner Davison addressed M-3. He referred the Council Members to the location map and aerial map included in their packets, which highlighted the subject property located just north of Carlton

Park. He said that Mr. Palacios has applied for an Outside Utility Agreement for water and sewer to his property at 305 East Goodlander Road, as the private domestic septic tank drain field is draining and one can smell the sewage. He went on to say that the property is abutted by R-1 residences in the north, east and west, and Carlon Park to the south and noted that the Comprehensive Plan designates the area as low-density residential. He stated that the matter was brought before the Council per the Municipal Code and read the pertinent section of code. He noted that there are twelve inch water and sewer lines running along East Goodlander Road in front of the subject property. He said that Mr. Palacios has agreed to pay all connection charges, to record the Outside Utility Agreement which then becomes a covenant against the property, and has signed documents to proceed with annexation if the Council so desires. He ended by saying that staff recommends approval of the Outside Utility Agreement and adding the existing residence to the existing sewer line.

Councilman Smeback wondered how many other Outside Utility Agreements are on that side of the street.

Community Planner Davison responded that this is the first one, as the gentleman at the corner chose not to sign after submitting an application and others who expressed interest were unable to get their neighbors to agree to it. He said that Mr. Palacios applied last year and was asked to speak with his neighbors about signing, but as his septic is now failing this became a greater concern.

Public Works Director Henne wondered if Mr. Palacios was made aware of the fifteen percent surcharge on an Outside Utility Agreement for utility rates.

Mayor Jones asked Community Planner Davison about the seven requirements.

Community Planner Davison read through the requirements as stated in a document included in the Council Packet.

Councilman Overby moved, and Councilman Tierney seconded, to approve the Resolution Authorizing the Mayor to Sign the Palacios Outside Utility Agreement (File 171.45.11-01). Roll was called: Council Member Gawlik – yes; Council Member Schmid – yes; Council Member Overby – yes; Council Member Smeback – yes; Council Member Jorgensen – yes; Council Member Larson – yes; Council Member Tierney - yes. By voice vote, approval was unanimous.

- * 4. Resolution Authorizing the Mayor to sign the Construction Change Directive (CCD) No. 4 for the New Public Works Utility Maintenance Facility
- 5. Resolution Authorizing the Mayor to Award the Construction Contract for 2011 Water System Improvements Project

Public Works Director Henne addressed M-5. He said that the North Reservoir has one or more leaks and this project is to clean the reservoir out, re-caulk the joints, and replace the drain line, inlet and vents, which will bring the reservoir back up to code. He stated that the bids were higher than anticipated; therefore, they eliminated Schedule A, the Goodlander distribution line, to keep within budget. He noted that the project cost, with contingencies, will still run approximately \$19,000 over the budgeted amount for this year's improvements.

Mayor Jones asked when the reservoir was built.

Public Works Director Henne replied that the first part was built around the 1920s or 1930s.

Mayor Jones observed that the reservoir is a two part in-ground cement reservoir, and this will take a drain back over into North Park. He expressed disappointment over the high bids and elimination of a pipe over into the Goodlander Reservoir at this time.

Councilman Tierney expressed concern about awarding the bid to a company when Schedules A, B, C, and D were included in original request for bids, and then Schedule A was eliminated after bids were submitted. He wondered how the bids from the other contractors compared on the costs after Schedule A was eliminated and if the City should go back out for bids on the remaining Schedules.

Public Works Director Henne responded that when they evaluated all the bids based on the remaining Schedules, Skaar Construction was still the low bid. He noted that the language included in the specifications allows for dropping Schedules once the bids are submitted.

Councilman Smeback remarked that this causes the contractor to balance out certain costs rather than overloading one Schedule or another.

Public Works Director Henne agreed, saying that it also allows them to eliminate Schedules if needed.

City Attorney Noe commented that they are still the low bidder based on the three remaining Schedules.

Mr. Pooler said that the contract documents allow for the selection of specific Schedules for this contract, which is then awarded based on the Schedules selected. He went on to say that they did a comparison of each Schedule between the various contractors and Skaar Construction was the lowest bidder whether you accepted all of the Schedules or only select ones.

Councilman Schmid asked for confirmation that the project would also exclude Schedule E for coating the interior of the reservoir.

Public Works Director Henne responded in the affirmative, saying that if it is found to be necessary once it is cleaned and inspected, he will come back with a change order.

Councilman Schmid expressed concern over doing this project without coating it and ending up back in the same situation in the near future.

Public Works Director Henne replied that he is concerned about that and that is why it was added as an alternate. He went on to say that he sent divers into the reservoir about five years ago and they found that some of the piping had rotted away, the ladders were in disrepair and some of the joints needed to be re-caulked.

Councilman Schmid asked for confirmation that he would come back with a change order if the coating is needed.

Public Works Director Henne replied in the affirmative.

Councilman Overby moved, and Councilman Schmid seconded, to approve the Resolution Authorizing the Mayor to Award the Construction Contract for 2011 Water System Improvements Project. Roll was called: Council Member Gawlik – yes; Council Member Schmid –

yes; Council Member Overby – yes; Council Member Smeback – yes; Council Member Jorgensen – yes; Council Member Larson – yes; Council Member Tierney - yes. By voice vote, approval was unanimous.

- * 6. Resolution Authorizing the Mayor to Accept Change Order Number 1 for the Rushmore Road Improvement Project
- 7. Resolution Authorizing the Mayor to Sign a Contract for Wastewater Treatment Facility Clarifier Upgrades with William Charles Construction Company, LLC dba William Charles West

Ted Pooler addressed M-7. He said that the project encompasses replacing the mechanisms in the existing clarifiers, upgrading the piping in both sledge pumping vaults, replacement of valves and the installation of a new flow meter. He noted that the configuration of the treatment plant is such that they can take one clarifier offline to affect any repairs and upgrades without adversely affecting the rest of the system. He stated that Lead Operator Laroche had expressed some concern over the quality of the existing piping and valves, so those items were included in the project. He went on to say that they received thirteen bids for the project, and that the low bid of \$617,822.00 from William Charles Construction Company, LLC was close to the engineer's estimate of \$618,904.00. He commented that there was a unique provision allowing for acquiring major pieces of equipment from alternative manufacturers, which allowed said manufacturers to submit bids for clarifier mechanisms. He said that the bid was based off of one manufacturer with a provision for alternate manufacturers, which allowed for the bids to be evaluated on each contractor's ability to do the work rather than their ability to select low-priced equipment. The low bid contractor provided an alternative price for another manufacturer, Envirodyne, which will save the City approximately \$45,000.00. He noted that they vetted the credentials for both William Charles Construction Company and Envirodyne, and recommended awarding the contract to William Charles Construction Company and accepting the alternate equipment cost reduction for a revised total amount of \$569,132.00.

Mayor Jones expressed his excitement over seeing the equipment lifted out of the clarifiers and wondered if it had really been forty years since some of it was installed.

Mr. Pooler replied that some pieces are from the early and mid-seventies.

Mayor Jones noted that he was a Council Member when the clarifier was redone. He noted that they've been in the water since then and wondered if the metal was coated with anything.

Mr. Pooler responded that it is coated with black goo, and that they are anxious to see the condition of the pieces of equipment when they are pulled out. He went on to say that it will be several months before that stage, as the project will need to go through the submittal process for review and then on to fabrication.

Mayor Jones noted that Lead Operator Laroche has a process to go through to keep the system in balance and get the sludge out.

Mr. Pooler said that Lead Operator Laroche will implement a reduction in the sludge levels at the plant, and they will submit a request for an alternate level of discharge to the Department of Ecology in the event of a process upset during construction.

Councilman Smeback inquired about the life expectancy of a clarifier.

Mr. Pooler responded that it is easily a twenty year life span, and as Mayor Jones had indicated, some of the equipment currently in place has been in use for forty years.

Councilman Tierney moved, and Councilman Schmid seconded, to approve the Resolution Authorizing the Mayor to Sign a Contract for Wastewater Treatment Facility Clarifier Upgrades with William Charles Construction Company, LLC dba William Charles West. Roll was called: Council Member Gawlik – yes; Council Member Schmid – yes; Council Member Overby – yes; Council Member Smeback – yes; Council Member Jorgensen – yes; Council Member Larson – yes; Council Member Tierney - yes. By voice vote, approval was unanimous.

N. Ordinances

1. Ordinance Declaring as Surplus Certain Property located south of Crusher Canyon Road and west of South Tenth Street

Community Planner Davison addressed N-1. He said that this Ordinance surpluses the property from the earlier Public Hearing; however, if the Council chooses not to surplus the property then they can elect to deny the Ordinance.

Councilman Tierney moved, and Councilman Gawlik seconded, to disapprove the Ordinance Declaring as Surplus Certain Property located south of Crusher Canyon Road and west of South Tenth Street and investigate the possibility of sub-platting said property. Roll was called: Council Member Gawlik – yes; Council Member Schmid – no; Council Member Overby – yes; Council Member Smeback – yes; Council Member Jorgensen – yes; Council Member Larson – yes; Council Member Tierney - yes. Motion passed with six voting yes and one voting no.

- * 2. Ordinance Providing for the Annexation of Certain Real Property by the City of Selah, Washington, and Incorporating the Same within the Corporate Limits thereof and Zoning said Real Property Two-Family Residential (R-2)

O. Communications

1. Oral

Mayor Jones opened the meeting. Seeing no one rise to speak, he then closed the meeting.

P. Reports/Announcements

1. Mayor

Mayor Jones said that he and Parks, Recreation and Tourism Director Hagler attended a seminar on swimming pools, where they collected a lot of great information on the subject. He noted that this will be the subject of a future Study Session.

Councilman Schmid complimented Councilman Jorgensen on the tourism and economic development speech he gave at the Selah Chamber meeting earlier in the day.

Councilman Tierney reminded everyone not to forget to vote.

2. Council Members

Councilman Tierney thanked Councilman Schmid for taking his place on a no vote.

Councilman Schmid commented that everyone else voted the wrong way.

Councilman Tierney said that he will not be attending the November 8th Council Meeting, as he will be welcoming his first great-grandson into the world that day.

Councilman Smeback observed that he is getting old.

Councilman Tierney commented that his grandkids have been saying that he's older than dirt for years.

Councilman Gawlik said that he believes that.

Councilman Tierney stated that they have ten grandkids, and this will be their first great-grandchild. He noted that his twenty-year old grandson will be leaving for the United States Army on the first of November and wished him Godspeed.

Councilman Larson had no report.

Councilman Jorgensen had no report.

Councilman Smeback had no report.

Councilman Overby had no report.

Councilman Schmid noted that the 2012 4U A&B Championship tournament has been moved to July 6-8. He complimented Fire Chief Davis on his letter in the quarterly Selah Fire Department newsletter. He went on to say that on November 17th the Yakima County Gang Commission will have a group from Pierce County visiting to view and participate in the Juvenile Department Gang Court. He noted that the Gang Court is under scrutiny as a model for courts across the United States and invited those who are interested in attending to contact him for arrangements. He finished by wishing everyone a happy and safe Halloween and encouraged them to wear their masks.

Mayor Jones remarked that Executive Assistant Lake told Ken Pendleton that he wears his mask all year round.

Councilman Gawlik had no report.

3. Boards

4. Departmental

Clerk/Treasurer Novobielski had no report.

Community Planner Davison commented that there will be an evidentiary hearing before the Hearing Examiner during the first week of November regarding a dog kennel up in the Goodlander Subdivision. He went on to say that Mr. Graf has a pending Comprehensive Plan amendment slated to go before the Planning Commission in November and the City Council in December, and that an appeal of a dog grooming business denial will be heard at the November 22nd Council meeting.

Public Works Director Henne had no report.

Fire Chief Davis said that the Emergency Medical Service Operations Board met and approved their 2012 budget, which will now go before the County Commissioners for approval.

Mayor Jones asked if it remained status quo.

Fire Chief Davis responded in the affirmative, saying that the only change is an online tech training system that will undergo a three month trial at the City of Yakima. He said that the online courses will allow for certification before undergoing the hands on training. He noted that Battalion Chief Martin is back at work.

Police Chief Dwarshuis said that an upgrade of the video recording system for the interview room has been completed, noting that the previous system still covers the lobby, holding cell and back door but was inadequate for the interview room. He noted an email received yesterday from a new Selah resident on Cedar who expressed their appreciation for the officers working graveyard who stopped to let them know their garage door was open at 2am.

Parks, Recreation and Tourism Director Hagler had no report.

City Supervisor Sweet reminded the Council Members that the first budget meeting will be held on November 7. He noted that the revised numbers will be sent out prior to the meeting.

City Attorney Noe had no report.

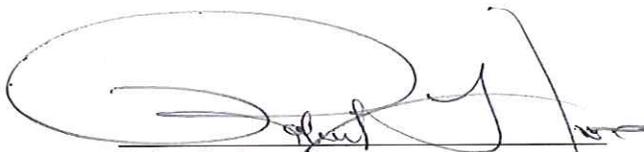

Q. Executive Session

No Executive Session was held.

R. Adjournment

Council Member Overby moved, and Council Member Larson seconded, that the meeting be adjourned. By voice vote, approval was unanimous.

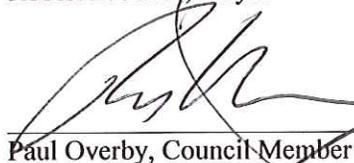

The meeting adjourned at 5:16pm.

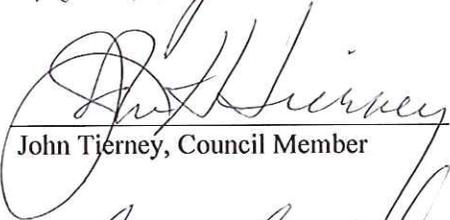

Robert L. Jones, Mayor

Keith Larson, Council Member

Paul Overby, Council Member

John Tierney, Council Member

Kevin Jorgensen, Council Member

Dave Smeback, Council Member

John Gawlik, Council Member

Allen Schmid, Council Member

ATTEST:

Dale E. Novobielski, Clerk/Treasurer
