

City of Selah
Council Minutes
June 10, 2014

Regular Meeting
Selah Council Chambers
115 West Naches Avenue
Selah, WA 98942

A. Call to Order Mayor Gawlik called the meeting to order at 4:00pm.

B. Roll Call

Members Present: Paul Overby; John Tierney; Dave Smeback; Allen Schmid; Brooke Finch; Roy Sample; Jane Williams

Members Excused:

Staff Present: David Kelly, City Administrator; Bob Noe, City Attorney; Dale Novobielski, Clerk/Treasurer; Rick Hayes, Police Chief; Gary Hanna, Fire Chief; Joe Henne, Public Works Director; Dennis Davison, Community Planner; Charlie Brown, Recreation Manager; Monica Lake, Executive Assistant

C. Pledge of Allegiance

Council Member Williams led the Pledge of Allegiance. Pastor Mark Griesse led the opening prayer.

D. Agenda Changes **None**

E. Public Appearances/Introductions/ Presentations **None**

F. Getting To Know Our Businesses **None**

G. Communications

1. Oral

Mayor Gawlik opened the meeting. Seeing no one rise to speak, he then closed the meeting.

2. Written **None**

H. Proclamations/Announcements **None**

I. Consent Agenda

Council Member Overby moved, and Council Member Finch seconded, to add Resolution M – 2 to the Consent agenda. By voice vote, approval was unanimous.

Executive Assistant Lake read the Consent Agenda.

All items listed with an asterisk (*) were considered as part of the Consent Agenda.

- * 1. Approval of Minutes: May 27, 2014 Study Session & Council Meeting
- * 2. Approval of Claims & Payroll:
 - Payroll Checks Nos. 77508 – 77547 for a total of \$211,940.70
 - Claim Checks Nos. 63979 – 64059 for a total of \$253,708.52
- * 3. Resolution M – 2: Resolution Authorizing the Mayor to Sign a Renewal Tourism Contract with Yakima Valley Visitors Information Center for June 2014 thru June 2015

Council Member Smeback moved, and Council Member Tierney seconded, to approve the Consent Agenda as read. By voice vote, approval of the Consent Agenda was unanimous.

J. Public Hearing

- 1. Public Hearing for the Remodel of the Selah Civic Center

Recreation Manager Brown addressed J – 1. He reminded Council that they were shown a presentation of the proposed Civic Center remodel at a Study Session held on May 27th. He said that part of the grant process requires that they have public feedback on the project. He noted that the exterior façade will look similar to the Public Works Maintenance Facility and will be located on the south side of the building.

Council Member Overby commented that there was mention of combining the food bank and the clothing bank at the Study Session.

Recreation Manager Brown responded that they will be expanding that area into what was proposed for the Parks & Recreation storage area to allow for both to inhabit the same space.

Council Member Williams asked if he would show the presentation presented at the Study Session.

Recreation Manager Brown replied in the negative, adding that the presentation can be viewed on the City's website.

Council Member Williams wondered if those in attendance could have copies of the proposed remodel.

Recreation Manager Brown responded that they are next to the agendas at the front of Council Chambers.

Mayor Gawlik opened the Public Hearing.

Don Christianson, American Legion, approached the podium and addressed the Council. He talked briefly about the history of the American Legion in Selah, noting that they moved to the Civic Center in the 1970s and utilize the facility approximately ten months out of the year. He said that the Auxiliary group also utilizes the facility twice a month when they meet to work on quilts for vets. He spoke about the need for additional storage space,

not only for the items used in formal meetings, but also space for the Auxiliary, the supplies used for the coffee stop up at Indian John rest stop, and for flag disposal. He expressed concern about the removal of the bathrooms in the current Legion room, as it appears that, according to the plans, the only access to bathrooms will be through the dining area.

Recreation Manager Brown responded that there will also be a door under the stairway for restroom access.

Mayor Gawlik stated that these are preliminary plans, which were presented to the Council at the last meeting, and at that time they voted to allow Recreation Manager brown to move forward with the next step for funding. He went on to say that, when they get funding identified, then they will establish true floor plans showing exactly where things will be, which will include available storage and which rooms will be used for which activities.

Mr. Christianson thanked the Mayor, adding that he wanted to do this in advance.

Mayor Gawlik said that it is his desire to have the citizens of Selah involved in the initial stages of the project as it is their community center.

Herb Schmidt approached the podium and addressed the Council. He expressed his appreciation for the preliminary information and the Mayor's comment about involving the community, as he felt that was very important.

Darlene Mercer, Selah Food Bank, approached the podium and addressed the Council. She said that they have a need for extra plug-ins for their freezers and refrigerators, an ADA compliant access ramp, and would also like chairs available for people who are waiting.

Mayor Gawlik responded that they City will be required to make the Civic Center ADA compliant per the requirements for any public structure. He suggested that her request for additional outlets be addressed when they reach a later stage in the planning process.

Ms. Mercer stated that they will need a place to back up their truck for loading and unloading.

Mayor Gawlik remarked that it is the City's intent to have a separate access for their services, which will give them the ability to have vehicles back up close to that door for loading and unloading.

Council Member Williams wondered approximately how many people come in at once.

Ms. Mercer replied that it is hard to say; some days are busy while some are not. She suggested seating for at least twelve individuals.

Council Member Williams commented that the seating would have to be in the hallway, which will need to be wide enough to accommodate the waiting public.

City Administrator Kelly asked how many outlets they would need.

Ms. Mercer responded that she thought they would need eight 20 amp breaker services.

City Administrator Kelly requested that she either give the information to Recreation Manager Brown or call him.

Ms. Mercer thank him and said that she would be in touch.

Norma Smith approached the podium and addressed the Council. She wondered whether the upper level would be used as a dance hall.

Mayor Gawlik replied that the main hall would, but that the upstairs room will be a multi-purpose room for things such as conferences and business meetings, and that the upstairs balcony could be utilized for events such as bridal shows and small concerts. He noted that the two gentlemen doing the preliminary plans suggested using that room as an additional marketing tool for events.

Ms. Smith asked if the outside of the building will be added onto.

Mayor Gawlik responded in the affirmative, saying that, in an effort to accommodate increased spaces for rooms such as the senior room, the Civic Center building will be expanded to a square shape, which will add some floor space and allow them to have a number of activities going on at the same time. He commented that they will be marketing the facility as such.

Pastor Jason Williams, Harvest Community Church, approached the podium and addressed the Council. He said that he likes the portable stage up front, but expressed his concern over a lack of air conditioning in the dining room at present. He asked what plans they had for the room next to multi-purpose room no. two.

Mayor Gawlik replied that it will be expanded and, with the additional floor space, will be utilized by different organizations for meetings and also marketed as multi-purpose room for receptions and other gatherings.

Pastor Williams expressed his excitement over the plans. He requested that they break up some of circuits in the main room to allow them to be split off.

Mayor Gawlik responded that, when the time comes, they will be going over the electrical, HVAC, plumbing, and other issues for creature comfort within the structure.

City Administrator Kelly inquired if there was a problem at present with popping breakers.

Pastor Williams responded in the affirmative, saying that the main circuit panel needs work. He thanked the Council for their time.

Mayor Gawlik remarked that the City has acquired the daily operation of the Civic Center as of December 2013, and that he had indicated to Recreation Manager Brown that he needed to look at safety and health issues that need to be addressed at this time. He noted that they are doing the necessary repairs to allow for continued use of the facility until the remodel can be done.

Pastor Williams expressed his appreciation for use of the Civic Center.

David Blakney approached the podium and addressed the Council. He asked about the design process, and if there will be open bidding. He said that he is interested in making sure that the City is spending its money wisely and felt that they were going in the right direction thus far.

Mayor Gawlik replied that, per City Ordinance, they have to go out to bid for every facet of project, including the design and architectural review.

Mr. Blakney wondered if there will be any discussion on the bid process.

City Attorney Noe commented that the decision will be made at a public meeting of the Council, although there will be no public hearing on the matter at that time.

City Administrator Kelly remarked that the City will put it out to bid and request that people submit proposals to the Council for them to review and make a decision.

Council Member Tierney noted that the entire booklet will be available for Council and the public to view.

Council Member Williams, representing the Selah Clothing Bank, approached the podium and addressed the Council. She said that she has been a volunteer with the clothing bank for several years, and met with the current president, Rita Ensmith, and Recreation Manager Brown to discuss their need for additional space than originally proposed on the plan. She commented that one thing they have requested is a wall dividing the food bank and the clothing bank, saying that they are not compatible to be in the same room due to health issues. She requested that the room be divided into two rooms, which could be looked at along with widening the hallway. She went on to say that a few years ago, when the clothing bank had its own room, they had the racks for clothing storage inside the room and never had to pull them out into the main hall; currently they have to pull them out into the main hall. She said that they are requesting enough room to allow the racks to remain in that space and allow them to operate the clothing bank even if the main room is in use.

Mayor Gawlik responded that there are fire codes and ADA codes that the City will need to follow regarding the width of the corridors, and that she needs to keep in mind that they are dealing with a structure that has walls already in place. He noted that they are somewhat restricted in how far they can go with the interior redesign because of this. He requested that the clothing bank provide Recreation Manager Brown with the square footage they would need, adding that he knows there will be a wall moved in that area to provide additional space. He reiterated that they decide what their square footage needs are and submit them to Recreation Manager Brown; they will do the best they can to accommodate everyone's needs.

Council Member Williams remarked that the information in the packet shows that there will be several opportunities for people to comment on the remodel, and that she hopes there will be a representative from Senior food program at a future meeting as well as the lady who runs the exercise program. She stated that everyone needs additional storage space, and to ensure that there are enough restrooms available.

Mayor Gawlik observed that it is his intent to give the public as every opportunity possible to provide input regarding the renovation of the Civic Center.

Steve Shotwell approached the podium and addressed the Council. He said that he hadn't seen anything in the preliminary plans about an elevator to get to the second floor.

Mayor Gawlik replied that, because of the age of the building, per the code book they can use the stairways for access, and that, due to the square footage and the existence of certain levels within the building, he has been advised that they will be compliant with codes regarding stairwells versus an elevator.

Mr. Schmidt approached the podium again to address the Council. He noted that the tourism room is somewhat limited in size, and that it depends on the objective that the City hopes to achieve with the room. He suggested that the Council Members visit the Visitors Information Center in Yakima to see what kind of options they might opt to incorporate into it, adding that they have a lot of information for the Western states. He commented that this size of room won't allow them to do some things that might enhance the tourism experience.

Mayor Gawlik responded that the existing lobby is going to be changed considerably, primarily to expand the Recreation office for additional floor space, and that the balance of the space is designated as an on-premises tourism section. He felt that the floor space will be maximized both for expansion and for tourism.

Mr. Schmidt observed that he simply wanted to point that out.

Mr. Christianson approached the podium again to address the Council. He wondered where the items in the showcase would be placed, as the remodel shows that the front showcase is no longer there.

Recreation Manager Brown replied that he and his staff have been discussing the need for a new trophy case and are trying to find a place for one.

Mr. Christianson remarked that additional outside lighting is needed.

Mayor Gawlik said that the proposed facility will have sufficient exterior lighting, wider sidewalks per code, and better security in the parking lot. He noted that they are just scratching the surface of things that will need to be addressed.

Pastor Williams approached the podium again to address the Council. He asked if they would be displaced during construction.

Mayor Gawlik responded that there may be a time where it will be necessary to have certain segments of the facility closed, adding that as this will likely be a multi-phase operation they will let him know if it does become necessary, and hope to provide an alternate venue for their use.

Seeing no one else rise to speak, Mayor Gawlik closed the Public Hearing.

K. New Business

1. Moss Subdivision Variance

Community Planner Davison addressed K – 1. He said that Mr. Moss applied for a variance to create a lot behind his house that has insufficient frontage property on the street. He referred Council to the map enclosed in their packets, indicating the deepens of the lot in question and the lack of frontage on South 3rd Street. He briefly reviewed the staff report, noting that the Comprehensive Plan designates the area as moderate density residential, with both water and sewer utilities available from 3rd St. He commented that Mr. Moss believes, if the short plat is approved, that he can utilize the zoning to construct a triplex behind his house. He informed the Council that they are only considering the variance at this time, and that the Planning Commission has reviewed the application and recommends approval of the variance with a twenty foot wide access easement to serve the proposed second lot. He stated that it is not contrary to the public interest, and that the Planning Commission voted unanimously to recommend approval of the preliminary plat. He ended by saying that variances such as this have been granted in the past.

Council Member Tierney noted that there is one just up the street from the subject property, on the west side of 3rd Street.

Council Member Overby moved, and Council Member Tierney seconded, to approve the Moss Subdivision Variance. Roll was called: Council Member Overby – yes; Council Member Tierney – yes; Council Member Smeback – yes; Council Member Schmid – yes; Council Member Finch – yes; Council Member Sample – yes; Council Member Williams – no. Motion passed with 6 yes votes and 1 no vote.

L. Old Business None

M. Resolutions

1. Resolution Authorizing the Mayor to Approve Task Order 2014-2 between the City of Selah and Huibregtse, Louman & Associates Inc. for Engineering and Surveying services for the Third Street Sewer Improvement Project

Public Works Director Henne addressed M – 1. He said that the sewer improvements are part of the Valleyview Avenue/ Southern Avenue/ South 3rd Street improvement project, and that this task order is to design a replacement of some of the sewer. He commented that he would like to keep moving forward on the project.

Council Member Tierney wondered if they should articulate that the project also encompasses Valleyview Avenue and Southern Avenue.

Public Works director Henne responded in the affirmative.

Council Member Tierney moved, and Council Member Overby seconded, to amend the Resolution to change the project name to the South Third Street, Southern Avenue, & Valleyview Avenue project. Roll was called: Council Member Overby – yes; Council Member Tierney – yes; Council Member Smeback – yes; Council Member Schmid – yes; Council Member Finch – yes; Council Member Sample – yes; Council Member Williams – yes. By voice vote, approval was unanimous.

Council Member Overby moved, and Council Member Smeback seconded, to approve the Resolution Authorizing the Mayor to Approve Task Order 2014-2 between the City of Selah and Huibregtse, Louman & Associates Inc. for Engineering and Surveying services for the Third Street Sewer Improvement Project. Roll was called: Council Member Overby – yes; Council Member Tierney – yes; Council Member Smeback – yes; Council Member Schmid – yes; Council Member Finch – yes; Council Member Sample – yes; Council Member Williams – yes. By voice vote, approval was unanimous.

- * 2. Resolution Authorizing the Mayor to Sign a Renewal Tourism Contract with Yakima Valley Visitors Information Center for June 2014 thru June 2015
3. Resolution Authorizing the Mayor to Sign a Submission of Grant Application for Community Development Block Grant Funding for the Selah Civic Center Remodel Project

Recreation Manager Brown addressed M – 3. He said that, in an effort to secure funding for the Civic Center remodel, he would like to apply for a community development block grant. He noted that he is asking for a lesser amount in an effort to make the application more appealing to the grant committee, and that he has also found some additional funding sources.

City Administrator Kelly remarked that his thought is to ask for the full \$750,000, but if they can figure out how to match it by fifty percent, then the chance of getting cash might increase significantly. He is interested in seeing what happens.

Mayor Gawlik commented that he understands the stance on that, as well as the strategy, and wondered if they needed to amend the Resolution.

Council Member Tierney observed that it says for a grant up to \$750,000.

Council Member Overby asked if any funds would be used to reconstruct the lots to expand the parking lot area.

City Administrator Kelly replied that, after a discussion on the matter, they opted to use transit funds for that.

Council Member Overby stated that there are strings attached if they are displacing people due to a use of the funds, but if they aren't using them to purchase the lots then it should be okay.

City Administrator Kelly noted that this is the first place they are looking at for funding, and that Senator Honeyford has emailed Recreation Manager Brown information on six different pots of money that could be available.

Council Member Schmid remarked that Selah joined with the City of Yakima a few years ago on the convention center expansion, and that the City could apply through that for what they needed once Yakima had paid down the loan, such as using it for a remodel of the Civic Center.

City Attorney Noe responded that he thinks the dollar threshold for a project is \$10 million.

Council Member Schmid said that there is a contract between the City of Yakima and the City of Selah regarding the expansion to the convention center, and that they should have funds available to use.

City Attorney Noe commented that it is a public facilities district.

Council Member Tierney thought that the problem would be that Yakima is beginning talks for an expansion of the convention center.

Council Member Schmid felt that Selah should be in front of that, as we were one of the original signers. He said that they should look at getting the money back for our community.

City Attorney Noe replied the he will have to look at it.

Council Member Schmid thought it should be looked at.

City Administrator Kelly noted that the committee is comprised of five people from Yakima, one from Selah, and one from Union Gap, which means that Selah doesn't have a majority when they vote on something. He stated that the application has a firm deadline; all requests must be submitted by June 19th.

Council Member Schmid responded that he isn't saying don't pursue the matter; he is saying look into other avenues as well.

City Administrator Kelly said that he will look into it.

Council Member Williams wondered if it would preclude the City from looking at putting up an entire new building if a remodel is more or simply not feasible.

Recreation Manager Brown asked if she would prefer construction or renovation.

Council Member Williams responded that she would be fine with either option.

Mayor Gawlik expressed his hope that they continue to look at doing renovations of the existing structure.

Council Member Schmid moved, and Council Member Overby seconded, to approve the Resolution Authorizing the Mayor to Sign a Submission of Grant Application for Community Development Block Grant Funding for the Selah Civic Center Remodel Project. Roll was called: Council Member Overby – yes; Council Member Tierney – yes; Council Member Smeback – yes; Council Member Schmid – yes; Council Member Finch – yes; Council Member Sample – yes; Council Member Williams – yes. By voice vote, approval was unanimous.

N. Ordinances **None**

O. Communications

1. Oral

Mayor Gawlik opened the meeting. Seeing no one rise to speak, he then closed the meeting.

P. Reports/Announcements

1. Mayor

Mayor Gawlik said that he, City Administrator Kelly, and Council Member Williams would be attending the annual Association of Washington Cities (AWC) conference in Spokane next week. He felt that it is a worthwhile conference to attend, and that he learned a great deal last year that has been implemented in Selah. He encouraged Council to attend these conferences, as it is a good educational process and would be helping the citizens.

2. Council Members

Council Member Finch had no report.

Council Member Overby had no report.

Council Member Sample said that he is the Council's new representative to the Selah Chamber of Commerce.

Council Member Tierney had no report, but asked how the police officers felt regarding the purchase of new shotguns.

Police Chief Hayes responded that they like them, although there was a bit of disappointment over not owning them. He noted that they will be qualifying on them this Friday.

Council Member Smeback had no report, but commented that Selah ranks among the highest cities in the state for residents carrying concealed weapons, and also has one of the lowest crime rates in the state.

Council Member Williams said that, in a media report regarding utility taxes, she thought Selah came in well versus other communities in the Valley. She wanted to invite people to try out the pool, adding that a lot of kids were using it yesterday. She asked when the kids from the Y were coming in to use it.

Recreation Manager Brown responded that they will be out Monday, Wednesday, and Friday of this week, and then every week for the rest of the summer.

Council Member Williams encouraged families to sign up for the family pass, saying that it is a nice way to unwind at the end of the day.

Council Member Schmid commented that he was gone for the last meeting and missed the discussion regarding the ice machine, and what transpired at the Civic Center and the pool regarding Pepsi. He said that he understands where Mayor Gawlik is coming from but thinks that they should look at the history of what has transpired in the community over the past 25 years. He remarked that Pepsi has been a good corporate sponsor of Selah youth, a great supporter of the schools, and has also done a large amount with a lot of non-profits. He hoped that this incident doesn't come back to be a bad light on Selah, as a lot of people in the community who have received support from Pepsi think that maybe there should be a way to revisit the matter. He would like to have seen something else happen, as there were a lot of times over the past 25 years where Pepsi provided things no one else in community could.

3. Departmental

Police Chief Hayes said that they had a training exercise yesterday, and that, while they identified some small items that they need to train on, eliminating the threat was near perfect. He felt that the bad guy would have been stopped pretty quickly, and was pleased with the outcome.

Council Member Tierney asked if the first officer on scene enters.

Police Chief Hayes responded in the affirmative, adding the first officer on scene was himself and three other officers. He noted that Deputy Chief Steen was off duty, but had been called in to be on incident command.

Fire Chief Hanna had no report, adding that they are working on some ongoing projects. He noted they will be going to bid at the end of month due to the grant received from FEMA.

Mayor Gawlik wondered how they were doing with the resell of surplus equipment.

Fire Chief Hanna replied that they have received bids on every piece they have advertised, and that the bid opening will take place on Friday at 2pm.

Recreation Manager Brown said that the new pool filters are up and running, and that the showers are the biggest issue they have run into.

Mayor Gawlik asked for a prognosis on the City vehicle.

Recreation Manager Brown replied that it will be a \$250 repair to get it running again.

Clerk/Treasurer Novobielski said that he has closed the May books and provided statements to the Department Heads and City Administrator Kelly. He felt that things were mostly on course for the year, adding that jail housing costs that are further than where he likes to see them.

Mayor Gawlik remarked that the guys have been busy, and that as a result the court has been busier.

Clerk/Treasurer Novobielski noted that he will be doing the first budget adjustment in June, and that he is sure that jail housing will be one of the items listed on it.

Community Planner Davison said that they continue to get applications for various projects, and that the gentleman hired to assist is currently working on a couple projects that will soon be ready for the hearing stage.

He commented that the Planning Commission will consider the marijuana Ordinance next Tuesday and adopt their findings and conclusions, and that he hopes to present the Ordinance at the next Council Meeting. He noted that they are doing an environmental review on Water Comprehensive Plan for Selah, and that the population is 55 more than last year.

Public Works Director Henne said that they are working on the water project; Hillview had a half dozen services left to place, and the contractors hopes to pave within the next two weeks. He noted that they have their weekly meeting tomorrow, and that he will find out where the project is at. He commented that they've already been on Speyers, Home, and Pear. He went on to say that they are trying to get the design done for Southern Avenue/ South 3rd Street / Valleyview Avenue project as well, and are busy trying to facilitate contractors on the various projects around town.

Mayor Gawlik inquired about a temperature issue with the pool.

Public Works Director Henne replied that it was too cold and they since turned up the thermostat. He showed Council a piece of the service pipe that is being replaced.

Council Member Sample asked where the pipe come from.

Public Works Director Henne responded that it came from Sunrise.

Council Member Sample thought it looked like an engine pipe.

Public Works Director Henne observed that it is pretty bad. He added that they will be sending letters out to homeowners telling them about it and recommending that they check their pipes.

City Administrator Kelly remarked that the thin end is scary; it's really thin.

Public Works Director Henne commented that some folks need to replace the line to their homes. He said that they are trying to keep up with building permits; they have another application from Tree Top pending.

Council Member Williams wondered if the splash pool was ready yet.

Public Works Director Henne responded that it has been repaired, but they want to let the concrete set up all day before putting it back into use.

City Administrator Kelly reminded Council that they discussed the Pepsi matter at the last Council Meeting, and that, while he acknowledges that Pepsi has done a lot in the community, people who rent the Civic Center don't want a vending machine in their photos. He noted that the City makes roughly \$50 per year having a machine in the Civic Center. He went on to say that, after he broached the subject with Mr. Trammell, he received a list of various things that Pepsi has done and the thousands of dollars they invested into the community. He remarked that one of the issues that came up was the soda fountain at the pool, which employees were allowed to use, and that there was no accountability for how much was consumed by employees versus sold to patrons. He stated that he explained to Mr. Trammell he would like them to work together and figure out how to continue their relationship, and that the response received was a removal of Pepsi signs and equipment from City properties and the threat of not providing free Pepsi to local non-profit groups. He said that he explained that the City isn't interested in changing things at Carlon Park, McGonagle Park or Wood Field; they will continue to sell only Pepsi products at those locations.

Mayor Gawlik felt that it was appropriate for him to respond as it was his decision to do so. He stated that what the City had in place was a quid pro quo wherein the City got certain things in exchange for exclusivity on their product in government locations; however, it was a verbal agreement not a written one and he decided that it was not in the best interests of the community to be beholden to one product distributor. He said that he stands by his decision, and feels that it was the best way to go.

Council took a ten minute recess.

4. Boards **None**

Q. Executive Session

1. 10 Minute Session – Personnel RCW 42.30.110 (1)(g)

Council went into Executive Session at 5:42pm. At 5:52pm, Council went back on the record. Mayor Gawlik stated that no action was taken during the Executive Session.

Council Member Schmid moved, and Council Member Sample seconded, that the City of Selah hire Thorner, Kennedy & Gano P.S. as Public Defender and Authorize the Mayor to sign the Public Defender Contract. Roll was called: Council Member Overby – yes; Council Member Tierney – yes; Council Member Smeback – yes; Council Member Schmid – yes; Council Member Finch – yes; Council Member Sample – yes; Council Member Williams – yes. By voice vote, approval was unanimous.

R. Adjournment

Council Member Schmid moved, and Council Member Overby seconded, that the meeting be adjourned. By voice vote, approval was unanimous.

The meeting adjourned at 5:53pm.

Paul Overby, Council Member

Dave Smeback, Council Member

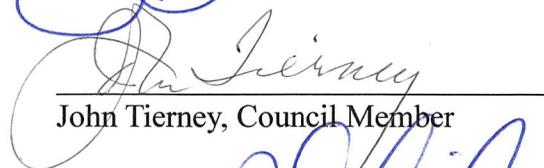

Brooke Finch, Council Member

Jane Williams, Council Member

John Gawlik, Mayor

John Tierney, Council Member

Allen Schmid, Council Member

Roy Sample, Council Member
