**PROCLAMATION
FIRE PREVENTION WEEK
OCTOBER 9-15 2016**

WHEREAS, the city of Selah, Washington is committed to ensuring the safety and security of all those living in and visiting Selah; and

WHEREAS, fire is a serious public safety concern both locally and nationally, and homes are where people are at greatest risk from fire; and

WHEREAS, U.S. fire departments responded to 369,500 home fires in 2014, according to the National Fire Protection Association (NFPA); and

WHEREAS, U.S. home fires resulted in 2,745 civilian deaths in 2014, representing the majority (84 percent) of all U.S. fire deaths;

WHEREAS, in one-fifth of all homes with smoke alarms, the smoke alarms are not working; and

WHEREAS, three out of five home fire deaths result from fires in properties without smoke alarms (38 percent) or with no working smoke alarms (21 percent); and

WHEREAS, working smoke alarms cut the risk of dying in reported home fires in half; and

WHEREAS, many Americans don't know how old the smoke alarms in their homes are, or how often they need to be replaced; and

WHEREAS, all smoke alarms should be replaced at least once every ten years; and

WHEREAS, the age of a smoke alarm can be determined by the date of its manufacture, which is marked on the back of the smoke alarm;

WHEREAS, Selah's first responders are dedicated to reducing the occurrence of home fires and home fire injuries through prevention and protection education; and

WHEREAS, Selah's residents are responsive to public education measures and are able to take personal steps to increase their safety from fire, especially in their homes; and

WHEREAS, the 2016 Fire Prevention Week theme, "Don't Wait – Check the Date! Replace Smoke Alarms Every 10 Years" effectively serves to educate the public about the vital importance of replacing the smoke alarms in their homes at least every ten years, and to determine the age of their smoke alarms by checking the date of manufacture on the back of the alarms.

THEREFORE, I Sherry Raymond, Mayor of Selah, do hereby proclaim October 9-15, 2016, as Fire Prevention Week throughout this city. I urge all the people of Selah to find out how old the smoke alarms in their homes are, to replace them if they're more than 10 years old.

G. Public Appearances/Introductions/ Presentations

1. Whitney Stohr, Selah Downtown Association

Whitney Stohr approached the podium and addressed the Council. She spoke about the Selah Downtown Association's events over the summer, starting with the gala held last Saturday and managing the Wednesday market, and the success of Tree Top Park, which has been a learning opportunity as well. She said that there was initial push back regarding the popup park taking up valuable parking spaces, but over time they have received positive comments as it moved around town, utilizing it for a Chamber After Hours event when it was at Viking Village, shifting it to Carlon Park for the upcoming Base Race, hopefully one more stop before deconstruction in October. She stated that they are required to keep track of how many they serve, and that just the Wednesday Markets and Second Saturday events have served over three thousand three hundred people, not including volunteers or volunteer hours. She went on to say that they are transitioning into fall events, such as partnering with the Viking Crew for Spirit Week; a quarterly coffee with the cops type of event, that would be both outreach and a way for the Police Department to talk with community members; and the Second Saturday program, which continues to grow each month. She added that they received notification yesterday that they were awarded two different grants from Pacific Power; one for the Second Saturday program, and another for an economic development training program for business owners. She ended by saying that the focus over the next couple of months will be working with businesses to learn about the B&O tax program, which allows businesses to pledge money through the Main Street program to their local organization, to ensure that those who wish to pledge are ready for the January first deadline.

Council Member Carlson inquired as to where the trees would be planted.

Ms. Stohr responded that it is still a work in progress, but she believes one will go to Nana Kate's.

Mayor Raymond asked if they were still planning a January first get together.

Ms. Stohr replied in the affirmative, saying that it will be for all businesses interested in the B&O program dollars. She noted that the pot goes away quickly, and that it is important that those businesses interested get in on the first.

Council Member Tierney wondered about the dollar value of the grants received.

Ms. Stohr responded that both were five hundred dollar grants.

H. Getting To Know Our Businesses **None**

I. Communications

1. Oral

Mayor Raymond opened the meeting.

Wayne Worby, 200 Weems Way, approached the podium and addressed the Council. He stated that he looked through the minutes online and picked up a few comments surrounding the Bill Callahan issue from the last meeting, which he wanted to review. He felt that the Council Members in attendance were disappointed that the matter was brought forward in that manner, which was expressed in many ways. He read aloud comments from Council Members, the Mayor, and Human Resources Manager Potter.

adding that there were many more than those he read. Picking up a piece of paper, he said that it contained an email given to him, from an official in the City of Selah, reading aloud a message from City Administrator Wayman to a concerned citizen before adding that he is representing the Council and our city in language far worse than anything Mr. Callahan said. He passed out a letter to Council regarding the eighteen-month golden parachute proposed to be given to the City Administrator, saying that he is opposed to it and thinks there are many reasons why many people are opposed to his reasons and actions. He encouraged the Council to reflect back on this, saying that these are not innocent comments and or isolated incidents.

Seeing no one else rise to speak, Mayor Raymond closed the meeting.

2. Written

- a. August 2016 Monthly Report for Building Permits and Inspections and Code Enforcement

J. Proclamations/Announcements **None**

K. Consent Agenda

Council Member Overby moved to add N – 2 and N – 3 to the Consent Agenda. Council Member Ritchie requested that they remain as part of the regular Agenda.

Executive Assistant Lake read the Consent Agenda.

All items listed with an asterisk (*) were considered as part of the Consent Agenda.

* 1. Approval of Minutes: august 23, 2016 Council Meeting

* 2. Approval of Claims & Payroll:

Payroll Checks Nos. 80021 – 80070 for a total of \$265,657.04
Claim Checks Nos. 68189 – 68263 for a total of \$194,597.18

Council Member Tierney moved, and Council Member Overby seconded, to approve the Consent Agenda as read. By voice vote, approval of the Consent Agenda was unanimous.

L. Public Hearings

- 1. Public Hearing to consider the resolution adopting the Selah Transit Development Plan, including the Annual Report for 2015 and Six-year Plan 2016-2021

Public Works Director Henne addressed L – 1. He said that Selah contracts for transit services with Yakima Transit, which requires an annual update of the six-year plan. He stated that the plan discusses the organization of the City, the transit services, long and short-range priorities, how the programming is

established and any significant changes that may be planned, requesting that they hold a public hearing as required.

Mayor Raymond opened the Public Hearing. Seeing no one rise to speak, she then closed the Hearing.

M. General Business

1. New Business

a. Creation of a New Position

Human Resources Manager Potter addressed M – 1a. He noted that Council was provided with a new version of the AIS from the packet, showing a range for both 2016 and 2017 rather than the single amounts listed on the original AIS, which will allow them to consider the applicants' credentials and history with a range that covers all administrative personnel. He reiterated previous discussions about records requests and the need to hire a records clerk, most recently at the Council retreat, reminding them of the legal requirement to respond and provide requests in an organized and responsive manner. He briefly outlined the responsibilities of the proposed position then opened the floor to their questions.

Council Member Tierney remarked that this task has been handled in house for some time, by existing staff, and requested that he outline the reason for a new employee.

Human Resources Manager Potter responded that there has been an increase in the workload the last few months, with requests that will take months or even years to answer.

Council Member Tierney asked about the impact to the city budget.

City Administrator Wayman replied that it has already impacted it, as they have pulled a part-time person from the Fire Department to handle the load in addition to what Executive Assistant Lake has to do. He noted that a large number of requests come from two individuals, one of which is not a city resident.

Council Member Tierney wondered about the adverse effect on the Fire Department.

Human Resources Manager Potter responded that he was discussing a records request with the Fire Chief earlier that day for records as far back as they have them, which entails going through eleven file boxes of records to ensure they have all the correct records responsive to that request.

Council Member Ritchie asked what would be done with that position in the future, assuming the records request thing is a fad for the moment.

Human Resources Manager Potter replied that there is always other work they could be tasked with. This is a non-represented position and council could eliminate it from the budget at that point, with no ramifications from the Teamsters.

Council Member Ritchie inquired if it could be advertised as a temporary position.

City Administrator Wayman responded that the position would transition to helping Clerk/Treasurer Novobielski with some of the clerk duties, adding that it is unlikely given the statewide trend. They have to face the future and understand that they will be dealing with these kinds of requests, and unable to handle them without staff dedicated to that task. He commented that they looked at a temp agency, but when they did an analysis of what is on the plate now and what to expect a year from now it did not pan out. He added that, if the Council chooses not to do this, then staff would do a reorganization to put a full time person on this.

Council Member Tierney asked that he state, for the information of the audience, what happens if they do not respond to requests in a timely manner.

City Attorney Noe spoke up, saying that the Act says that if they cannot respond in five days then they need to come up with a reasonable estimate, so the City goes through a process of how long take to respond to requests. He noted that they have some flexibility to extend it if necessary, but they cannot extend it too much, and that if they do not timely respond then there can be an imposition of statutory penalties.

Council Member Tierney inquired if it could exceed what the cost of this position is.

City Attorney Noe replied in the affirmative.

City Administrator Wayman noted that it is not covered under their insurance.

Council Member Sample remarked that the position is also for retention and training in various departments, and wondered what part of the job would remain to do that.

Human Resources Manager Potter responded that several departments have records in paper format. There would need to be some sort of management in place for digital retention and storage, establishment of a policy for records stored for 'x' amount of years and then destroyed after a certain date, as there currently is not a policy or description on how to handle these records. He commented that, if they move to digital records, a body needs to scan them for retention.

Council Member Tierney observed that they would need to develop retention file criteria for how long to keep said records.

Council Member Sample felt that the salary was on the high side and asked if the benefits are worth that much.

Human Resources Manager Potter replied that the first year is only accounting for three months, but they have to estimate that the person will elect to use all benefits that they could offer rather than the minimum that could be used.

Council Member Tierney moved, and Council Member Overby seconded, to approve the Creation of a New Position. Roll was called: Council Member Overby – yes; Council Member Tierney – yes; Council Member Sample – yes; Council Member Ritchie – yes; Council Member Bell – yes;

Council Member Underwood – yes; Council Member Carlson – yes. By voice vote, approval was unanimous.

2. Old Business **None**

N. Resolutions

1. Resolution adopting the Selah Transit Development Plan, including the Annual Report for 2015 and Six-year Plan 2016-2021.

Public Works Director Henne addressed N – 1. He requested that Council approve the Resolution adopting the Selah Transit Development Plan, reading the list of items from the plan.

Council Member Overby moved, and Council Member Tierney seconded, to approve the Resolution adopting the Selah Transit Development Plan, including the Annual Report for 2015 and Six-year Plan 2016-2021. Roll was called: Council Member Overby – yes; Council Member Tierney – yes; Council Member Sample – yes; Council Member Ritchie – yes; Council Member Bell – yes; Council Member Underwood – yes; Council Member Carlson – yes. By voice vote, approval was unanimous.

2. Resolution authorizing the Mayor to sign agreement between PPC Solutions, Inc. and the City of Selah for security provided in the beer garden during the Selah Autumn Festival and Selah Base Race

Recreation Manager Mullen addressed N – 2. He requested that Council approve the Resolution with PPC Solutions for the Fall Festival and Selah Base Race, saying that they are needed for the field they will have the beer garden in, to check identification and provide general security.

Council Member Ritchie asked about the fiscal impact of thirteen hundred dollars, as her understanding was that they were going to make money for the festival and have the excess go to charity.

Recreation Manager Mullen responded that the excess is going to charity.

Council Member Ritchie inquired if this is coming from city funds.

Recreation Manager Mullen replied in the affirmative.

Council Member Ritchie wondered why.

Recreation Manager Mullen responded that it is a budgeted amount.

Council Member Ritchie then asked why the matter was brought before Council.

Recreation Manager Mullen replied because of the agreement.

Council Member Ritchie moved, and Council Member Overby seconded, to approve Resolution authorizing the Mayor to sign agreement between PPC Solutions, Inc. and the City of Selah for security provided in the beer garden during the Selah Autumn Festival and Selah Base Race. Roll was called: Council Member Overby – yes; Council Member Tierney – yes; Council Member Sample – yes; Council Member Ritchie – yes; Council Member Bell – yes; Council Member Underwood – yes; Council Member Carlson – yes. By voice vote, approval was unanimous.

3. Resolution authorizing the Mayor to sign agreement between Nana Kate's and the City of Selah in order for Nana Kate's to provide services in the beer garden during the Selah Autumn Festival and Selah Base Race

Recreation Manager Mullen addressed N – 3. He said that this agreement is for Nana Kate's to provide food in the beer garden during the event, as Ms. Platt has the experience and has been an integral part, this will provide her with a dollar for each person who enters the beer garden, which will be donated to the Wounded Soldier Project from Nana Kate's.

Council Member Ritchie wondered about the source of the money.

Recreation Manager Mullen replied that it comes from part of the business's profits.

Council Member Ritchie then asked about the point of the agreement.

Recreation Manager Mullen answered that it will provide her with recognition.

Council Member Ritchie requested that they be more open-minded towards other businesses who might desire that role for next year's event, adding that she is concerned over the appearance of favoritism.

City Administrator Wayman said that Ms. Platt was the only individual who stepped up when they were looking for someone to help.

Council Member Ritchie responded that she did not want to cheapen her services but was surprised to see it on the agenda four days prior to the event. She recommended doing it more ahead of time.

City Administrator Wayman commented that he would be glad to expand to as many businesses as would want to participate.

Council Member Tierney remarked that, while she is not profiting from this, she would receive a tax credit for donating it back. He suggested that staff keep that in mind for the future.

Council Member Sample inquired about the menu.

Recreation Manager Mullen listed the various vendors who will provide beer and wine.

Council Member Sample asked what Ms. Platt would serve.

Recreation Manager Mullen replied that she would be serving espresso, selling things outside the beer garden for breakfast, and possibly selling brats outside as well.

Council Member Sample wondered if she would be selling products from her store in the beer garden.

Recreation Manager Mullen responded in the affirmative, adding that one need not purchase food to get a beer.

Council Member Ritchie felt that it sounds as if Ms. Platt has already fulfilled her dues regarding this.

Council Member Tierney moved, and Council Member Overby seconded, to approve the Resolution authorizing the Mayor to sign agreement between Nana Kate's and the City of Selah in order for Nana Kate's to provide services in the beer garden during the Selah Autumn Festival and Selah Base Race. Roll was called: Council Member Overby – yes; Council Member Tierney – yes; Council Member Sample – yes; Council Member Ritchie – yes; Council Member Bell – yes; Council Member Underwood – yes; Council Member Carlson – yes. By voice vote, approval was unanimous.

Council Member Underwood did not think that Ms. Platt should bring in sweets to Council Meetings, as she does not feel it is right to receive goods as a Council Member.

Council Member Tierney noted that she brought them in while being on the agenda under Getting to Know Your Businesses, and that he does not have an objection to someone bringing in what they sell while on the agenda under that heading.

Council Member Overby agreed with Council Member Underwood's remark, but added that Ms. Platt also brought in enough for the audience and staff as well, which would be giving away free samples.

1. Departments

Police Chief Hayes said that they installed the new scanner for electronic fingerprinting earlier that day, and that there will also be Selah Police Officers inside the park at all times while the beer garden is open, not just the security firm.

Recreation Manager Mullen gave a brief update on the Selah Base Race and the number of runners signed up, noting that half of them are from outside Selah and Yakima. He thanked Ms. Dornay for her help with the design of the shirts, and noted that soccer starts the weekend after the race

City Administrator Wayman asked those in attendance to come to the event and represent the city, adding there will be plenty of entertainment.

Recreation Manager Mullen gave a brief rundown of the schedule for the weekend, including a silent auction and a local fourteen-year-old girl to play Saturday afternoon.

City Administrator Wayman gave an update on the new City Hall/ Police Station, saying that Traho is planning to present a report to Council at a study session the first meeting in October. He recommended that every Council Member attend if possible, as there will be a lot of information presented in an hour and a half, which will be the basis for whether they go forward with a vote for the proposed facility. He talked briefly about the numbers involved, which come down to either a voter bond or a vote to authorize the City to take out an FDA loan to purchase the facility.

RE: Loan Contract Number: DM16-952-030

Dear Mr. Henne:

Enclosed are two originals of the Drinking Water State Revolving Fund Loan Contract Number identified above. The Loan Contract details the terms and conditions that will govern the agreement between us, which includes the project's Scope of Work and an Attorney's Certification as formal attachments.

When you have obtained the appropriate signatures, please return both original contracts and all the attachments to the Public Works Board within 60 calendar days of the date of this letter. Failure to return the contracts within this timeline may result in your loan offer being withdrawn.

Please note that the U.S. Environmental Protection Agency is the funding source for this program and the Catalog of Federal Domestic Assistance (CFDA) number is 66.468. Consequently, the loan funds are federal and subject to both state and federal requirements.

If the loan fee applies, the amount of the loan includes an amount sufficient to cover a one-percent loan administration fee. The fee will be collected at contract execution, and is non-refundable. Please review the terms and conditions of the Loan Contract carefully, as well as the attachments.

A requirement of the DWSRF program is that you must maintain updated project records and yearly renewal of your registration in the System for Award Management at www.sam.gov.

Another requirement of the DWSRF program is that all entities are required to verify that the federal government has not suspended or debarred them from receiving federal funds. This includes, but is not limited to, project contractors, subcontractors, engineers, architects, consultants, and equipment vendors. The Exclusion Report can be accessed at www.sam.gov. Failure to provide this required certification may result in termination of your loan contract.

After the Loan Contracts have been signed by the Board or its designee, one fully executed original will be returned to you for your files. Instructions for drawing the loan funds will be returned to you with the executed Loan Contract, as well as the necessary forms. The Loan Contract specifies that draws may be made for costs that have been incurred, and which have supporting documentation such as receipts or bills.

We are looking forward to working with you over the course of this project. If you have any questions about this Loan Contract, please contact me.

Acting under the authority of RCW 70.119A.170 and RCW 43.155.040, the Board has awarded the Contractor a Drinking Water State Revolving Fund loan for an approved project. The Contractor will be a sub-recipient of funds provided by the United States Environmental Protection Agency, CFDA Number 66.468, Title: Safe Drinking Water State Revolving Fund, award year of this contract.

1.3. PURPOSE

The Board and the Contractor have entered into this Contract to undertake a local project that furthers the goals and objectives of the Drinking Water State Revolving Fund Loan Program. The project will be undertaken by the Contractor and will include the activities described in the SCOPE OF WORK shown on the Declarations page. The project must be undertaken in accordance with the loan Program Special Terms and Conditions and all applicable federal, state and local laws and ordinances, including but not limited to those specifically enumerated in Attachment II: Federal and State Requirements, which by this reference are incorporated into this Contract as though set forth fully herein.

1.4. ORDER OF PRECEDENCE

In the event of an inconsistency in this Contract, the inconsistency shall be resolved by giving precedence in the following order:

- A. Applicable federal and State of Washington statutes and regulations.

- B. Special Terms and Conditions including attachments.
- C. General Terms and Conditions.

1.5. AMOUNT OF LOAN

The Board, using funds appropriated from the Drinking Water Assistance Account, shall loan the Contractor a sum not to exceed the amount shown as LOAN AMOUNT on the attached Declarations Page. This loan amount includes a loan fee, if applicable, which is shown on the Declarations Page as LOAN FEE.

1.6. LOAN FEE

If the loan fee applies, it will be assessed at loan execution.

The amount of the loan fee (if applicable) represents one percent (1%) of the loan request and shall not be reduced, regardless of the actual final loan amount at project completion. If the loan fee applies and the total loan amount is increased by amendment, an additional loan fee equal to one percent (1%) of the additional loan amount will be assessed at amendment execution. The amount of any loan fee will be displayed on the Declarations Page as LOAN FEE.

1.7. TERM OF LOAN

The calculation of interest rate will apply to the remaining payments beginning from the date the Project Completion report is certified.

This loan forgiveness shall be applied at project completion and shall apply to the lesser of the loan amount or the actual eligible costs and that declared percent on any accrued interest. The percent of loan forgiveness and interest rate shall not be changed, regardless of the actual cost of the project and the Affordability Index at project completion.

1.9. DISBURSEMENT OF LOAN PROCEEDS AND REQUIRED DOCUMENTATION

You will receive email notification from your FPU representative that the electronic request has been received.

Commerce will pay the Contractor upon acceptance of the work performed and receipt of properly completed invoices. Invoices may be submitted to Commerce not more often than monthly.

Payment shall be considered timely if made by Commerce within thirty (30) calendar days after receipt of properly completed invoices. Payment shall be sent to the address designated by the Contractor.

The Board may, at its sole discretion, withhold payments claimed by the Contractor for services rendered if the Contractor fails to satisfactorily comply with any term or condition of this contract.

No payments in advance or in anticipation of services or supplies to be provided under this contract shall be made by the Board.

In the event that the Contractor receives reimbursement for costs that are later determined by the Board to be ineligible, these funds shall be repaid to the Drinking Water Assistance Account by payment to the Department of Commerce, or its successor, together with the submission of the Project Completion Amendment.

At the time of project completion, the Contractor shall submit to the Board a Certified Project Completion Request certifying the total actual project costs, and a final voucher for the remaining eligible funds. An assistance recipient begins annual repayment of the loan no later than one year after contract execution. The first repayment installment is due on the first day of the month shown as PAYMENT MONTH on the Declarations Page. Interest only will be charged for this first payment if a draw is made prior to this date. All subsequent payments shall consist of principal and accrued interest due that month of each year during the remaining term of the loan.

In lieu of termination, the Contract may be amended to reflect the new funding limitations and conditions.

2.42. SEVERABILITY

If any provision of this Contract or any provision of any document incorporated by reference shall be held invalid, such invalidity shall not affect the other provisions of this Contract that can be given effect without the invalid provision, if such remainder conforms to the requirements of law and the fundamental purpose of this Contract and to this end the provisions of this Contract are declared to be severable.

2.44. SURVIVAL

The terms, conditions, and warranties contained in this Contract that by their sense and context are intended to survive the completion of the performance, cancellation or termination of this Contract shall so survive.

Such termination shall be deemed "for cause." Termination shall take effect on the date specified in the notice.

- D. Preserve and transfer any materials, contract deliverables and/or the Board property in the Contractor's possession as directed by the Board.

Upon termination of the Contract, the Board shall pay the Contractor for any service provided by the Contractor under the Contract prior to the date of termination. The Board may withhold any amount due as the Board reasonably determines is necessary to protect the Board against potential loss or liability resulting from the termination. The Board shall pay any withheld amount to the Contractor if the Board later determines that loss or liability will not occur.

The rights and remedies of the Board under this section are in addition to any other rights and remedies provided under this Contract or otherwise provided under law.

2.49. WAIVER

Waiver of any default or breach shall not be deemed to be a waiver of any subsequent default or breach. Any waiver shall not be construed to be a modification of the terms of this Contract unless stated to be such in writing and signed by Authorized Representative of the Board.

2.50. WORK HOURS AND SAFETY STANDARDS

The Contract Work Hours and Safety Standards Act (40 USC 327-333)-Where applicable, all contracts awarded by recipients in excess of \$100,000 for construction and other purposes that involve the employment of mechanics or laborers must include a provision for compliance with Section 102 and 107 of the Contract Work Hours Safety Standards Act (40 USC 327-333), as supplemented by Department of Labor regulations (29 CFR part 5). Under Section 102 of the Act, each subcontractor is required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than 1 ½ times the basic rate of pay for all hours worked in excess of 40 hours in the work week. Section 107 of the Act is applicable to construction work and provides that no laborer or mechanic is required to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

DRINKING WATER STATE REVOLVING FUND (MUNICIPAL)

Selah
DM16-952-030

I, _____, hereby certify:

I am an attorney at law admitted to practice in the State of Washington and the duly appointed attorney of the Contractor identified on the Declarations Page of the Contract identified above; and

I have also examined any and all documents and records, which are pertinent to the Contract, including the application requesting this financial assistance.

Based on the foregoing, it is my opinion that:

1. The Contractor is a public body, properly constituted and operating under the laws of the State of Washington, empowered to receive and expend federal, state and local funds, to contract with the State of Washington, and to receive and expend the funds involved to accomplish the objectives set forth in their application.
2. The Contractor is empowered to accept the Drinking Water State Revolving Fund financial assistance and to provide for repayment of the loan as set forth in the loan agreement.
3. There is currently no litigation in existence seeking to enjoin the commencement or completion of the above-described public facilities project or to enjoin the Contractor from repaying the Drinking Water State Revolving Fund loan extended by the Public Works Board with respect to such project. The Contractor is not a party to litigation, which will materially affect its ability to repay such loan on the terms contained in the loan agreement.
4. Assumption of this obligation would not exceed statutory and administrative rule debt limitations applicable to the Contractor.

The Contractor agrees to comply with the requirements of Environmental Protection Agency's Program for Utilization of Small, Minority and Women's Business Enterprises (MBE/WBE) in procurement under this Contract, contained in 40 CFR, Part 33.

FAIR SHARE OBJECTIVES, 40 CFR, Part 33, Subpart D

The following are exemptions from the fair share objective Requirements:

- Grant and loan recipients receiving a total of \$250K or less in EPA financial assistance in a given fiscal year.
- Tribal recipients of Performance Partnership Eligible grants under 40 CFR Part 35, Subpart B.
 - There is a 3-year phase in period for the requirement to negotiate fair share goals for Tribal and Insular Area recipients.
- Recipients of Technical Assistance Grants.

The Fair Share Objectives or goals for the utilization of disadvantaged businesses negotiated with EPA by the WA Office of Minority Women Business are stated below.

Construction	10% MBE	6% WBE
Supplies	8% MBE	4% WBE
Equipment	8% MBE	4% WBE
Purchased Services	10% MBE	4% WBE

By signing this Contract, the Contractor is accepting the fair share objectives/goals stated above and attests to the fact that it is purchasing the same or similar construction, supplies, services and equipment, in the same or similar relevant geographic buying market as WA Office of Minority Women Business goal is being adopted.

SIX GOOD FAITH EFFORTS, 40 CFR, Part 33, Subpart C

Pursuant to 40 CFR, Section 33.301, the Contractor agrees to make the following good faith efforts whenever procuring construction, equipment, services and supplies under an EPA financial assistance agreement, and to ensure that sub-recipients, loan recipients, and prime contractors also comply.

Records documenting compliance with the six good faith efforts shall be retained. The six good faith efforts shall include:

- Ensure Disadvantaged Business Enterprises are made aware of contracting opportunities to the fullest extent practicable through outreach and recruitment activities. For Indian Tribal, State and Local Government recipients, this will include placing the Disadvantaged Business Enterprises on solicitation lists and soliciting them whenever they are potential sources.
- Make information on forthcoming opportunities available to Disadvantaged Business Enterprises and arrange time frames for contracts and establish delivery schedules, where the requirements permit, in a way that encourages and facilitates participation by Disadvantaged Business Enterprises in the competitive process. This includes, whenever possible, posting solicitations for bids or proposals for a minimum of thirty (30) calendar days before the bid or proposal closing date.
- Consider in the contracting process whether firms competing for large contracts could subcontract with Disadvantaged Business Enterprises. For Indian Tribal, State and Local Government recipients, this will include dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by Disadvantaged Business Enterprises in the competitive process.
- Encourage contracting with a consortium of Disadvantaged Business Enterprises when a contract is too large for one of these firms to handle individually.
- Use the services and assistance of the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.
- If the prime contractor awards subcontracts, also require the prime contractor to take the five good faith efforts in paragraphs A through E above.

MBE/WBE REPORTING, 40 CFR, Part 33, Sections 33.502 and 33.503

Contractor is required to submit MBE/WBE participation reports to the Board and/or the Department of Health, on a quarterly basis, beginning with the Federal fiscal year reporting period the Contractor receives the award and continuing until the project is completed.

CONTRACT ADMINISTRATION PROVISIONS, 40 CFR, Section 33.302

The Contractor agrees to comply with the contract administration provisions of 40 CFR, Section 33.302.

The Contractor agrees to require all general contractors to provide forms: EPA Form 6100-2 DBE Subcontractor Participation Form and EPA Form 6100-3 DBE Subcontractor Performance Form to all its Disadvantaged Business Enterprise subcontractors, engineers, vendors, and any other entity for work or services listed in the declared SCOPE OF WORK. These two (2) forms may be obtained from the EPA Office of Small Business Program's website on the internet at <http://www.epa.gov/osbp/grants.htm>.

The Contractor agrees to require all general contractors to complete and submit to the Contractor and Environmental Protection Agency EPA Form 6100-4 DBE Subcontractor Utilization Form beginning with the Federal fiscal year reporting period the Contractor receives the award and continuing until the project is completed. Only procurements with certified MBE/WBEs are counted toward a Contractor's MBE/WBE accomplishments.

BIDDERS LIST, 40 CFR, Section 33.501(b) and (c)

The Contractor is also required to create and maintain a bidders list if the Contractor of the loan is subject to, or chooses to follow, competitive bidding requirements. Please see 40 CFR, Section 33.501 (b) and (c) for specific requirements and exemptions.

Section 33.501(b) of the rule is as follows:

A recipient of a Continuing Environmental Program Grant or other annual grant must create and maintain a bidders list. In addition, a recipient of an EPA financial assistance agreement to capitalize a revolving loan fund also must require entities receiving identified loans to create and maintain a bidders list if the recipient of the loan is subject to, or chooses to follow, competitive bidding requirements. The purpose of a bidders list is to provide the recipient and entities receiving identified loans who conduct competitive bidding with as accurate a database as possible about the universe of MBE/WBE and non-MBE/WBE prime and subcontractors. The list must include all firms that bid or quote on prime contracts or bid or quote on subcontracts under EPA assisted projects, including both MBE/WBEs.

The bidders list must be kept until the grant project period has expired and the recipient is no longer receiving EPA funding under the grant. For entities receiving identified loans, the bidders list must be kept until the project period for the identified loan has ended. The following information must be obtained from all prime and subcontractors:

- (1) Entity's name with point of contact;
- (2) Entity's mailing address, telephone number, and e-mail address;
- (3) The procurement on which the entity bid or quoted, and when; and
- (4) Entity's status as a MBE/WBE¹ or non-MBE/WBE.

The exemption found at § 33.501(c) is as follows:

A recipient of an EPA financial assistance agreement in the amount of \$250,000 or less for any single assistance agreement, or of more than one financial assistance agreement with a combined total of \$250,000 or less in any one fiscal year, is exempt from the paragraph (b) of this section requirement to create and maintain a bidders list. Also, a recipient under the CWSRF, DWSRF, or BCRLF Program is not required to apply the paragraph (b) of this section bidders list requirement of this subpart to an entity receiving an identified loan in an amount of \$250,000 or less, or to an entity receiving more than one identified loan with a combined total of \$250,000 or less in any one fiscal year. This exemption is limited to the paragraph (b) of this section bidders list requirements of this subpart.

ATTACHMENT V: DWSRF ELIGIBLE PROJECT COSTS

Must be directly attributable to the project.

1. The costs for complying with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970.
2. DWSRF loan fees.
3. The purchase of a portion of another system's capacity, if it is the most cost effective solution (limited to publicly owned (municipal) systems).
4. Construction of reservoirs (clear wells) that are part of the treatment process and are collocated with the treatment facility.
5. Construction of distribution reservoirs (finished water).
6. Cost associated with restructuring or consolidation of existing water systems by publicly owned water systems.
7. Main extensions to connect to safe and reliable sources of drinking water.
8. Cost associated with collecting and preparing environmental assessment documents to obtain local permits.
9. Direct labor including related employee benefits:
 - a. Salaries and wages (at actual or average rates) covering productive labor hours of employees of the borrower (excluding the administrative organization of the operating unit involved) for periods of time actively or incidentally engaged in pre-design engineering, design engineering, construction engineering, acquisition of rights of way, and the cleaning, sterilization or bacteriological testing of water system components prior to public use. The costs of services rendered by employees generally classified as administration/project management of the loan are considered a direct cost only when such employees are assigned the types of services described above and shall be limited to 3% or less of the project loan amount.
 - b. Employee benefits relating to labor are considered a direct cost of construction projects. The following items may be included as employee benefits:

 - Retirement benefits.
 - Hospital, health, dental, and other welfare insurance.
 - Life insurance.
 - Industrial and medical insurance.
 - Vacation.
 - Holiday.
 - Sick leave.
 - Military leave and jury duty.

Employee benefits must be calculated as a percentage of direct labor dollars. The computation of predetermined percentage rates to be applied to current labor costs must be based on the average of total employee benefits and total labor costs for the prior fiscal year and adjusted by known current year variations.

- c. Other than work identified in Number 9.a, no costs associated with labor performed by the borrower's employees, including force account work, are eligible for financing assistance.
10. Contract engineering, planning, design, legal, and financial planning services. The Board reserves the right to declare ineligible legal costs that are unreasonable and disproportionate to the project.
11. Contract construction work.
12. Direct vehicle and equipment charges at the actual rental cost paid for the equipment or, in the case of city or county-owned equipment, at the rental rates established by the local government's "equipment rental and revolving fund" following the methods prescribed by the division of municipal corporations. However, such costs must be charged on a uniform basis to equipment used for all projects regardless of the source of funding. Cities with a population of eight thousand or less not using this type of fund are allowed the same rates as used by the State Department of Transportation.
13. Direct materials and supplies.
14. Other direct costs incurred for materials or services acquired for a specific project are eligible costs and may include, but are not limited to such items as:
 - a. Telephone charges.
 - b. Reproduction and photogrammetry costs.

ATTACHMENT VI: LABOR STANDARD PROVISIONS FOR SUBRECIPIENTS THAT ARE GOVERNMENTAL ENTITIES

Wage Rate Requirements Under The Consolidated and Further Continuing Appropriations Act, 2013 (P.L. 113-6)

Preamble

With respect to the Clean Water and Safe Drinking Water State Revolving Funds, EPA provides capitalization grants to each State which in turn provides subgrants or loans to eligible entities within the State. Typically, the subrecipients are municipal or other local governmental entities that manage the funds. For these types of recipients, the provisions set forth under Roman Numeral I, below, shall apply. Although EPA and the State remain responsible for ensuring subrecipients' compliance with the wage rate requirements set forth herein, those subrecipients shall have the primary responsibility to maintain payroll records as described in Section 3(ii)(A), below and for compliance as described in Section I-5.

Occasionally, the subrecipient may be a private for profit or not for profit entity. For these types of recipients, the provisions set forth in Roman Numeral II, below, shall apply. Although EPA and the State remain responsible for ensuring subrecipients' compliance with the wage rate requirements set forth herein, those subrecipients shall have the primary responsibility to maintain payroll records as described in Section II-3(ii)(A), below and for compliance as described in Section II-5.

I. Requirements Under The Consolidated and Further Continuing Appropriations Act, 2013 (P.L. 113-6) For Subrecipients That Are Governmental Entities:

The following terms and conditions specify how recipients will assist EPA in meeting its Davis-Bacon (DB) responsibilities when DB applies to EPA awards of financial assistance under the FY 2013 Continuing Resolution with respect to State recipients and subrecipients that are governmental entities. If a subrecipient has questions regarding when DB applies, obtaining the correct DB wage determinations, DB provisions, or compliance monitoring, it may contact Department of Commerce. If a State recipient needs guidance, they may obtain additional guidance from DOL's web site at <http://www.dol.gov/whd/>.

1. Applicability of the Davis- Bacon (DB) prevailing wage requirements.

Under the FY 2013 Continuing Resolution, DB prevailing wage requirements apply to the construction, alteration, and repair of treatment works carried out in whole or in part with assistance made available by a State water pollution control revolving fund and to any construction project carried out in whole or in part by assistance made available by a drinking water treatment revolving loan fund. If a subrecipient encounters a unique situation at a site that presents uncertainties regarding DB applicability, the subrecipient must discuss the situation with the recipient State before authorizing work on that site.

2. Obtaining Wage Determinations.

(a) Subrecipients shall obtain the wage determination for the locality in which a covered activity subject to DB will take place prior to issuing requests for bids, proposals, quotes or other methods for soliciting contracts (solicitation) for activities subject to DB. These wage determinations shall be incorporated into solicitations and any subsequent contracts. Prime contracts must contain a provision requiring that subcontractors follow the wage determination incorporated into the prime contract.

- (i) While the solicitation remains open, the subrecipient shall monitor www.wdol.gov weekly to ensure that the wage determination contained in the solicitation remains current. The subrecipients shall amend the solicitation if DOL issues a modification more than 10 days prior to the closing date (i.e. bid opening) for the solicitation. If DOL modifies or supersedes the applicable wage determination less than 10 days prior to the closing date, the subrecipients may request a finding from the State recipient that there is not a reasonable time to notify interested contractors of the modification of the wage determination. The State recipient will provide a report of its findings to the subrecipient.
- (ii) If the subrecipient does not award the contract within 90 days of the closure of the solicitation, any modifications or supersedes DOL makes to the wage determination contained in the solicitation shall be effective unless the State recipient, at the request of the subrecipient, obtains an extension of the 90 day period from DOL pursuant to 29 CFR 1.6(c)(3)(iv). The subrecipient shall monitor www.wdol.gov on a weekly basis if it does not award the contract within 90 days of closure of the solicitation to ensure that wage determinations contained in the solicitation remain current.

(b) If the subrecipient carries out activity subject to DB by issuing a task order, work assignment or similar instrument to an existing contractor (ordering instrument) rather than by publishing a solicitation, the subrecipient shall insert the appropriate DOL wage determination from www.wdol.gov into the ordering instrument.

(c) Subrecipients shall review all subcontracts subject to DB entered into by prime contractors to verify that the prime contractor has required its subcontractors to include the applicable wage determinations.

(d) As provided in 29 CFR 1.6(f), DOL may issue a revised wage determination applicable to a subrecipient's contract after the award of a contract or the issuance of an ordering instrument if DOL determines that the subrecipient has failed to incorporate a wage determination or has used a wage determination that clearly does not apply to the contract or ordering instrument. If this occurs, the subrecipient shall either terminate the contract or ordering instrument and issue a revised solicitation or ordering instrument or incorporate DOL's wage determination retroactive to the beginning of the contract or ordering instrument by change order. The subrecipient's contractor must be compensated for any increases in wages resulting from the use of DOL's revised wage determination.

3. Contract and Subcontract provisions.

(a) The Recipient shall insure that the subrecipient(s) shall insert in full in any contract in excess of \$2,000 which is entered into for the actual construction, alteration and/or repair, including painting and decorating, of a treatment work under the CWSRF or a construction project under the DWSRF financed in whole or in part from Federal funds or in accordance with guarantees of a Federal agency or financed from funds obtained by pledge of any contract of a Federal agency to make a loan, grant or annual contribution (except where a different meaning is expressly indicated), and which is subject to the labor standards provisions of any of the acts listed in § 5.1 or the FY 2013 Continuing Resolution, the following clauses:

(1) Minimum wages.

(i) All laborers and mechanics employed or working upon the site of the work will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics.

Contributions made or costs reasonably anticipated for bona fide fringe benefits under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of paragraph (a)(1)(iv) of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in § 5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: Provided, that the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classification and wage rates conformed under paragraph (a)(1)(ii) of this section) and the Davis-Bacon poster (WH-1321) shall be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

Subrecipients may obtain wage determinations from the U.S. Department of Labor's web site, www.dol.gov.

(ii)(A) The subrecipient(s), on behalf of EPA, shall require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination. The State award official shall approve a request for an additional classification and wage rate and fringe benefits therefore only when the following criteria have been met:

(1) The work to be performed by the classification requested is not performed by a classification in the wage determination; and

(2) The classification is utilized in the area by the construction industry; and

(3) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

(B) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the subrecipient(s) agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), documentation of the action taken and the request, including the local wage determination shall be sent by the subrecipient (s) to the State award official. The State award official will transmit the request, to the Administrator of the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, DC 20210 and to the EPA DB Regional Coordinator concurrently. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification request within 30 days of receipt and so advise the State award official or will notify the State award official within the 30-day period that additional time is necessary.

(C) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the subrecipient(s) do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the award official shall refer the request and the local wage determination, including the views of all interested parties and the recommendation of the State award official, to the Administrator for

determination. The request shall be sent to the EPA DB Regional Coordinator concurrently. The Administrator, or an authorized representative, will issue a determination within 30 days of receipt of the request and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(D) The wage rate (including fringe benefits where appropriate) determined pursuant to paragraphs (a)(1)(ii)(B) or (C) of this section, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

(iii) Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.

(iv) If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, provided, that the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

(2) Withholding. The subrecipient(s), shall upon written request of the EPA Award Official or an authorized representative of the Department of Labor, withhold or cause to be withheld from the contractor under this contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees, and helpers, employed by the contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the site of the work, all or part of the wages required by the contract, the (Agency) may, after written notice to the contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

(3) Payrolls and basic records.

(i) Payrolls and basic records relating thereto shall be maintained by the contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work. Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.

(ii)(A) The contractor shall submit weekly, for each week in which any contract work is performed, a copy of all payrolls to the subrecipient, that is, the entity that receives the sub-grant or loan from the State capitalization grant recipient. Such documentation shall be available on request of the State recipient or EPA. As to each payroll copy received, the subrecipient shall provide written confirmation in a form satisfactory to the State indicating whether or not the project is in compliance with the requirements of 29 CFR 5.5(a)(1) based on the most recent payroll copies for the specified week. The payrolls shall set out accurately and completely all of the information required to be maintained under 29 CFR 5.5(a)(3)(i), except that full social security numbers and home addresses shall not be included on the weekly payrolls. Instead the payrolls shall only need to include an individually identifying number for each employee (e.g., the last four digits of the employee's social security number). The required weekly payroll information may be submitted in any form desired. Optional Form WH-347 is available for this purpose from the Wage and Hour Division Web site at <http://www.dol.gov/whd/forms/wh347instr.htm> or its successor site. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. Contractors and subcontractors shall maintain the full social security number and current address of each covered worker, and shall provide them upon request to the subrecipient(s) for transmission to the State or EPA if requested by EPA, the State, the contractor, or the Wage and Hour Division of the Department of Labor for purposes of an investigation or audit of compliance with prevailing wage requirements. It is not a violation of this section for a prime contractor to require a subcontractor to provide addresses and social security numbers to the prime contractor for its own records, without weekly submission to the subrecipient(s).

(B) Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:

(1) That the payroll for the payroll period contains the information required to be provided under § 5.5 (a)(3)(ii) of Regulations, 29 CFR part 5, the appropriate information is being maintained under § 5.5 (a)(3)(i) of Regulations, 29 CFR part 5, and that such information is correct and complete;

(2) That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in Regulations, 29 CFR part 3;

(3) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.

(C) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH-347 shall satisfy the requirement for submission of the "Statement of Compliance" required by paragraph (a)(3)(ii)(B) of this section.

(D) The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under section 1001 of title 18 and section 231 of title 31 of the United States Code.

(iii) The contractor or subcontractor shall make the records required under paragraph (a)(3)(i) of this section available for inspection, copying, or transcription by authorized representatives of the State, EPA or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fails to submit the required records or to make them available, the Federal agency or State may, after written notice to the contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR 5.12.

(4) Apprentices and trainees--

(i) Apprentices. Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship Training, Employer and Labor Services, or with a State Apprenticeship Agency recognized by the Office, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Office of Apprenticeship Training, Employer and Labor Services or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice. The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed. Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination. In the event the Office of Apprenticeship Training, Employer and Labor Services, or a State Apprenticeship Agency recognized by the Office, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(ii) Trainees. Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration. The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration. Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is

not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(iii) Equal employment opportunity. The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.

(5) Compliance with Copeland Act requirements. The contractor shall comply with the requirements of 29 CFR part 3, which are incorporated by reference in this contract.

(6) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses contained in 29 CFR 5.5(a)(1) through (10) and such other clauses as the EPA determines may be appropriate, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in 29 CFR 5.5.

(7) Contract termination; debarment. A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.

(8) Compliance with Davis-Bacon and Related Act requirements. All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 are herein incorporated by reference in this contract.

(9) Disputes concerning labor standards. Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and Subrecipient(s), State, EPA, the U.S. Department of Labor, or the employees or their representatives.

(10) Certification of eligibility.

(i) By entering into this contract, the contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).

(ii) No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).

(iii) The penalty for making false statements is prescribed in the U.S. Criminal Code, 18 USC 1001.

4. Contract Provision for Contracts in Excess of \$100,000.

(a) Contract Work Hours and Safety Standards Act. The subrecipient shall insert the following clauses set forth in paragraphs (a)(1), (2), (3), and (4) of this section in full in any contract in an amount in excess of \$100,000 and subject to the overtime provisions of the Contract Work Hours and Safety Standards Act. These clauses shall be inserted in addition to the clauses required by Item 3, above or 29 CFR 4.6. As used in this paragraph, the terms laborers and mechanics include watchmen and guards.

(1) Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (a)(1) of this section the contractor and any subcontractor responsible therefore shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (a)(1) of this section, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (a)(1) of this section.

(3) Withholding for unpaid wages and liquidated damages. The subrecipient, upon written request of the EPA Award Official or an authorized representative of the Department of Labor, shall withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be

necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (b)(2) of this section.

(4) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (a)(1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (a)(1) through (4) of this section.

(b) In addition to the clauses contained in Item 3, above, in any contract subject only to the Contract Work Hours and Safety Standards Act and not to any of the other statutes cited in 29 CFR 5.1, the Subrecipient shall insert a clause requiring that the contractor or subcontractor shall maintain payrolls and basic payroll records during the course of the work and shall preserve them for a period of three years from the completion of the contract for all laborers and mechanics, including guards and watchmen, working on the contract. Such records shall contain the name and address of each such employee, social security number, correct classifications, hourly rates of wages paid, daily and weekly number of hours worked, deductions made, and actual wages paid. Further, the Subrecipient shall insert in any such contract a clause providing that the records to be maintained under this paragraph shall be made available by the contractor or subcontractor for inspection, copying, or transcription by authorized representatives of the (write the name of agency) and the Department of Labor, and the contractor or subcontractor will permit such representatives to interview employees during working hours on the job.

5. Compliance Verification

(a) The subrecipient shall periodically interview a sufficient number of employees entitled to DB prevailing wages (covered employees) to verify that contractors or subcontractors are paying the appropriate wage rates. As provided in 29 CFR 5.6(a)(6), all interviews must be conducted in confidence. The subrecipient must use Standard Form 1445 (SF 1445) or equivalent documentation to memorialize the interviews. Copies of the SF 1445 are available from EPA on request.

(b) The subrecipient shall establish and follow an interview schedule based on its assessment of the risks of noncompliance with DB posed by contractors or subcontractors and the duration of the contract or subcontract. Subrecipients must conduct more frequent interviews if the initial interviews or other information indicated that there is a risk that the contractor or subcontractor is not complying with DB.

Subrecipients shall immediately conduct interviews in response to an alleged violation of the prevailing wage requirements. All interviews shall be conducted in confidence."

(c) The subrecipient shall periodically conduct spot checks of a representative sample of weekly payroll data to verify that contractors or subcontractors are paying the appropriate wage rates. The subrecipient shall establish and follow a spot check schedule based on its assessment of the risks of noncompliance with DB posed by contractors or subcontractors and the duration of the contract or subcontract. At a minimum, if practicable, the subrecipient should spot check payroll data within two weeks of each contractor or subcontractor's submission of its initial payroll data and two weeks prior to the completion date the contract or subcontract.
