

Recycling Made Easy!

- **No need to sort!** Our single stream recycling service means all accepted recyclables can be put together in your 96-gallon recycling cart.
- **Please clean your recyclables!** Only clean recyclables can be recycled. Dirty, contaminated items are sent to the landfill with other trash.
- Wheel your cart to the curb on a designated recycling collection day (see calendar on reverse).
- Place cart approximately three feet from your garbage cart. **All done!**

Thank You!

ACCEPTED RECYCLABLES

Note: Due to current volatility in the markets for recycled materials, we are collecting only the following items at this time. We will resume collecting additional recyclables as those markets return to normal.

- ✓ Steel (tin) cans
- ✓ Aluminum cans
